Dear Commissioner Forese,

Taxing solar customers is ludicrous. The point of solar energy usage is that it costs less and does NOT require a company to monitor the sun.

Sincerely,

Amy Tropp

Dear Commissioner Forese,

This is the valley of the sun why are you letting the utilities kill solar. Solar is the future and Arizona is behind. We should be making it easier and maore cost effect to have solar not less.

Three utilities are trying to levy charges on solar customers outside of established procedures. These utilities shouldn't get special treatment to raise rates for solar. The Commission should stick to their word and not let utilities raise rates outside of the proper venue.

Sincerely,

Sean Martin

Dear Commissioner Forese,

As a customer of APS, I am requesting ACC to stick to your word to NOT allow utilities to do a blanket tax on solar customers. You are now attempting to do so outside of "a rate case" an established proceeding you agreed to follow. This will NOT allow due process, something our country is based upon as one of our rights.

Utilities should NOT get preferential treatment over customers. A fair and transparent process already exists, the rate case, so please use it.

Sincerely,

Sharon Kopina

Dear Commissioner Forese,

Please say no to any increases or rate changes for residents that have solar. Please do not penalize the residents for saving energy and helping keep our state clean. We have already paid the price when purchasing our solar panels and need your support to keep solar affordable to anyone who is thinking of getting solar on their rooftops. Thank you for your time.

Dear Commissioner Forese,

Please adhere to the standard of discussing rates for Solar ONLY during a Rates Change venue. I personally hope you don't raise any taxes on Solar especially at the behest of an unethical company such as APS.

Kindly follow proper protocol when addressing Solar or any other electrical rate consideration. I would hope you would think of the PEOPLE for a change and NOT APS bottom line.

Thank you,

Sincerely,

John Oleson
